Customer Reviews

Delirious overcame HAV, HBV, and HCV, beating an 8 month prognosis for immediate liver transplant or be dead in 8 months. His books seem to tell the same story that leads to being HEP free and still alive after 14 years of alternative treatment, healthy eating, and exhaustive exercise. Lots of story when I was seeing insight to a "step" process to curing HEP. In the post-log the book provides a link to his web site and his \$999 The Delirious Recovery Program. No cures in the book. Just story.
