Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Why oh why will companies and publishers not use the "free look inside" for customers (offers this). It's so hard to look at a piano book and determine what songs are in it, and if so, what the arrangements look like if we think we can play. Anyway, I ordered this book, not unhappy, but not completely happy. Some songs seem very difficult, some seem very easy. I buy from most of the

time, quick, easy, and I love the one-click purchase. I'll keep this book, but when I go to song books or music sheets looking for a book, etc., I want to see an example of the songs, or the Table of Contents. I'm going to list what I can in this review for you all. I don't think this is a beginner book, but I'm not sure it would be considered advanced either. Somewhere in the middle. I learned to play when I was young, and just starting over, so I want something not for kids, but I don't want something that an experienced professional pianist plays. I also did not grow up learning to play chords, it was left hand and right hand. Now I'm trying to learn chords. Seems too many to remember to me.

I like the easy to play versions of the old favorite hymns. I played piano as a child, but have not had a piano in my home for many years. I purchased a new electronic piano and this book is perfect for a rusty older student who wants to enjoy playing again.

Several people mentioned that they thought this book was more difficult than anticipated, but I didn't have that impression. I haven't played the piano for about 20 years and I was able to sit down and work my way through many of these pieces.

The song books are being used at a local nursing home, prior to our church service there. I play the piano, and the old folks sing along from the 13 books I bought..we need more, as more of the residents are coming early to sing hymns with us. It was their request to have books that were large print, and something they could easily follow. Thanks for making such a great songbook..God is

using it !!! :)

Having played piano all my life, adding this collection of beloved hymns to my library is priceless. Now I can play at home with ease and still produce a wonderful song! It's nice to be able to play such great music without all the complexity and difficulty of harder to read music.

This was a good find. Most of the songs are one to two pages long. The format is large and perfect for the Intermediate pianist. I wanted a hymn that was mostly traditional I am glad that I found it at . It was a bit cheaper here than at Sheetmusicplus. So I ordered it. I am happy with it.

Enjoying playing these hymns. Always like Hal Leonard arrangements.Â The Easy Piano Hymn Collection (Easy Piano (Hal Leonard))

This is a nice book but some of the arrangements are odd. I would rather have had the traditional ones. It is easy to play though which I like.
