2014 Maine Lighthouses Calendar

Synopsis

The rocky, 3,000-mile-long coast of Maine has long been a bane to ships, so it's no surprise that the state has more coastal lighthouses than any other. This calendar beautifully displays twelve of the more than sixty beacons that dot the coast. A short history of each lighthouse, holidays, moon phases, and tide tables are also included.

Customer Reviews

You can't not love Maine, the people, the topography, and especially the sea. Not to mention the lobster, crab and blueberries. Every year about this time (March), the lure to return for summer intensifies, but the reminders of these beautiful calendars will have to do until then. Every state should have a firm like DownEast. Don't hesitate, stop shopping, click on you favorite DownEast offering.
