.I don't leave five stars but this book should have 10 star's. ANYONE LIVING IN THE USA should

read this book. It explains What is happening to Americans and why our government is in trouble. It goes in detail why we see third world behavior here and why and who is behind it. It explains in great detail what most of the educated Americans all ready know and explains it in great detail what we fare facing our very freedoms are at stake. Anyone who thinks this is not true is living in denial and the harsh reality is if the US does not take this as truth and band together as a nation you will have no freedoms of any kind. It has happened in many other countries and there beloved country was broken forever. Hunger, loss of jobs, and no government to guide the nation it ended with total lawless the streets ran red . All American need to read this book and heard the warnings in its pages. Read it through before you judge it and its contents. Teens to old people a must read this is not fiction it is happening in this country right now. every man and woman should read this book to understand the powers fighting to take over our country the shadow government not (either party) but selected people are trying to take away your freedoms ..

Very engaging, some points were a little out there on the conspiracy scale, however much factual content that helped me put the puzzle pieces together in this current political cycle. Explains Obama, the Clinton's, and the Bush's motivation for there actions. Anyone know about Agenda 21? I did not... learning about that was a large eye opener. Entertaining, educational, disturbing and at the end very positive and hopeful and for .99 a no brainer. I hope this guys does more because 36 page books I can actually find the time to read.

You won't see this on CNN. This is an excellent view of the mostly secret world of George Soros and the Rothschild banking empire. Every thinking US citizen should read this book as soon as possible. Fascinating stuff.

Just finished reading your book, I must admit this was the first book I have read about Soros. I now have a better understanding of who and what he is. Looking forward reading and learning more. Thanks Peter.

If you are struggling to understand the chaotic headlines around you, this is an easy read. You will come away with basic understandings that will guide your research/thinking on Antifa and fake news propagated by main stream media.

Very up to date and insightful. Quick and to the point. I did not realize how deceitful Obama truly is.

It's too bad, they're going to win, in the end...Good job.

Simplistic, biased and without verification. A waste of time and money. I would not read this author again.
