Transcultural Nursing Theory And Models: Application In Nursing Education, Practice, And Administration (Sager, Transcultural Nursing Theory And Models)

Synopsis

Transcultural Nursing Theory and Models: Application in Nursing Education, Practice, and Administration is a must read for the nurse currently practicing. National and global changes in demographics, a changing global economy, have further dramatized the need for culturally competent nurses. I found this book to be what I had hoped for and more related to my understanding of the concept of transcultural nursing (TCN)....I would highly recommend this book to any nurse who is looking to deepen her understanding of the many diverse cultures she encounters at the bedside, or out in the community using components of the theory, models and assessment guide presented in this book."--Advance for Nurses This book makes a worthwhile contribution to the field of transcultural nursing by complementing texts that introduce theory and models or delve into them individually and more deeply. Sagar contributes her expertise as a Transcultural Nursing Scholar by focusing on how to use the models and guide. She explains and shows the reader how transcultural nursing theory can be disseminated and implemented."--Online Journal of Cultural Competence in Nursing and Healthcare This volume is the first to examine and promote the application of current, major transcultural nursing (TCN) theory and models and assessment tools in nursing education, practice, and administration. As a comprehensive text for master's and bachelor's level nursing students, it features case studies, care plans, initial role playing exercises, and implications of TCN concepts when planning, implementing and evaluating client care.

TCN Theory, Models, and Assessment Guide Discussed:

- Leininger's Theory of Culture
- Care Diversity and Universality
- Purnell's Model for Cultural Competence
- Campinha-Bacote's Biblically Based Model of Cultural Competence
- Giger and Davidhizar's Transcultural Assessment Model
- Spector's Health Traditions Model
- Andrews and Boyle's Transcultural Nursing Assessment Guide for Individuals and Families

Key Features:

- Reviews one theory and four major TCN models plus one TCN assessment guide
- Provides assessment tools, case studies, and role playing exercises
- Discusses implications of TCN concepts for planning, implementing and evaluating client care
- Reviews TCN in an international context
- Offers NCLEX-type test questions and answers in each section
- Fulfills AACN content guidelines for cultural competency
