Great recipes to try here.

Nice!

It would be nice if there were a few more recipes that didn't rely so heavily on beans. I mean, as someone who is trying to eat a plant based diet, I eat a lot of them already. When I buy a cookbook, my first hope is that it will have some recipes that aren't just "more beans". And I do have one or two other little nitpicks that keep this from being a better book. For instance, a couple of recipes have far more nuts than a HCLF diet would ever want to employ. There's a baklava oatmeal recipe in there that would blow your fat allotment for an entire day in just one sitting, if not far exceed it. And it states that it's a vegan cookbook, while having some recipes with things like Worcestershire sauce. Some brands of that are now vegan, but ACTUAL Worcestershire sauce is made with fish. You would want to use a replacement, or maybe... I think trader joe's brand? Something like that. If you're going to specify all the meat and dairy replacements, one should also specify on the Worcestershire sauce. Someone who's new to the diet might not know about the anchovy in there. And it often recommends using meat replacements, whichever ones you prefer. And this is actually not a great idea, because some meat replacements have A TON of fat in them. You really do have to stick to certain brands. All that said, I will definitely try more of its recipes. But even on just a read through, I can't offer it more than 3 stars.
