Protectors Of The Pack Box Set: A Wolf Shifter Paranormal Romance

Synopsis

Running from trouble, running to trouble, and confronting the source. Two packs come together to defend against a mercenary biker gang. Expect motorcycles, wolves, a case of mistaken identity, a reluctant assassin, fiercely protective shifter men, three very different couples, and a whole lot of fun. The Protectors of the Pack Complete Series Box Set contains all three books in the Protectors of the Pack series. There's steamy, action-packed romance, scorching love scenes, and a happily ever after ending.

Bodyguard Forced together from worlds apart, it wasn't what they wanted. But needs can change... Alex Briggs speaks her mind. After spending her life confined to the city, she finds the allure of running free as a wolf in the forest irresistible. When an unexpected threat strikes, Alex is forced away from the fight by the alpha of her pack—her father, and into the arms of a tall, sculpted stranger. Pulled away from the reconnaissance mission he wanted, Reynolds Parker is sent on a delivery. Completing the job proves difficult when he gets one look at the curvy vixen he is meant to escort. Challenged by each other and the hostile wolves that pursue them, the couple must work together if they want to survive.

Enemies Sometimes love means taking a bullet. Right in the a--College student in the morning, coffee shop barista at night. Zoe Roberts is content to live her regular life by her regular routine. Everything goes according to plan until a strange man grabs her in a dark alley. Suddenly she's not only supposed to believe in the existence of mythical creatures, but become an assassin for them. What could go wrong?

Witt Parker is tired of waiting for the mercenary wolf pack to make their move. But, when it's finally time to put an end to the Silent Butchers, nothing could prepare him for meeting the she-wolf sent to kill his twin. He could show her the wonders of being a shifter, if only he could convince her that he's not her enemy. Heir! I'll show you what it means to be mine... Heir to a multi-billion dollar company. Heir to the alpha of the largest pack in the state. Wolf shifter Hunter Briggs works tirelessly to be worthy of his birthright. When his father falls ill, it's up to Hunter to step up and take his place. But he can't shake the feeling that someone close must be to blame. And his prime suspect, a gorgeous blonde bombshell, just might be the mate he's been searching for.

A big city. A fresh start. Grace Perry wants nothing to do with anything shifter. Most of all she is absolutely, one hundred percent, not looking for a mate. Unfortunately her new boss happens to be a wolf, who is convinced that someone is trying to kill him. When his suspicions become reality, Grace is determined to find out who is responsible. Too bad her boss's way-too-smoking-hot son has the same idea. And she just can't stop running into him.

Customer Reviews

I loved this collection. Great dynamics and characters. I am definitely going to see about more.

Loved the Protectors Pack Books 1, 2 and 3. Could read these over and over again!!!! Love the characters!!!! Much praise!!!!

IÃ¢Âve read Bodyguard Ã¢Â Enemies Ã¢Â Heir and reviewed all three. I absolutely loved them all. The stories are intense, detailed, an involved plot, likable main characters and secondary characters you cannot wait to read about in their own stories. Now, all three stories are available in one box set. Grab them. You wonÃ¢Â regret it. If you love Shifter Romance then youÃ¢ÂI enjoy these three stories, and youÃ¢ÂI get to read them back to back which makes the series come alive even more when you donÃ¢Â have to wait months for the next story to come out (like I did originally) *grin* I would highly recommend this box set, the stories within are amazing.

I could not read it, the dialogue is too elementary... Reynolds said, I said, Reynolds said, I said... I mean really, it's a conversation we know how saying what..... could have been a great story of written differently...

I enjoyed this box set and the story lines were awesome as they were separated yet together... I loved the romance and the action I did not expect the ending so good book

About three different brothers who are wolf shifters looking for their mates and running from a bad wolf shifter gang

This was a great find on ku. A great series of shifters series I had not read yet. Will try more from this author

Action, adventure and romance. Very good
