Customer Reviews

Really great ideas but the added number of ingredients is a little ridiculous. Most students don't

have a fully stocked kitchen.

Good, quick, cheap recipes.

good product

This was a going-away present to our college bound grandson who wanted to try his hand at cooking. All recipes use common items - very good beginners book

great book! excited to make food!

Flipping through this book, I am excited to try these out. They are pretty basic recipes but there is enough of a selection to keep me happy. I definitely do recommend this for the college student who doesn't want to live off of fast food and the cafeteria.

if you don't have much money this is the perfect book to get, to put food on your table

So happy I bought this book! I had been wasting so much money on groceries and not making good meals, and now I can do both! Save money and cook great meals!
