Customer Reviews

I originally got the book for my 9 yr. old son - who dislikes reading. Ever since getting this book he's been a bit more enthused about reading. This book is full of action and everyone in my household absolutely loves it! My son can't wait to get Timepocalypse; the second book in this series. Its a great little graphic novel/comic book for my kids.

My son is a PVZ nut... he likes these books so when I tell him to get off the XBox, he has something to do. Heaven forbid our children go outside.... *insert eye roll*

Paul Tobin has become my 8 year old son's favorite author. Even after reading these graphic novels dozens of times he still finds them funny and engaging.

I happened to think this was a very interesting fun cute little comic and a tiny bit hard to follow! This book is based on

This book is very silly and I laughed so hard! It tells a funny story and I could read it over and over but I don't want to die of laughter

From my 8 year old. It sustained his attention to read, which was the goal of the purchase. He says he felt like his was part of the action by paving the story with reading.

This was a great birthday present for an elementary and even possibly middle school student. The bright vibrant pictures and funny story lines keep the fun alive in reading.

I got this book for my 7-year-old son and first I read it to him, and once we finished he read it on his own. He loves it. He has now finished it twice and is very excited to get the next one!! Such a great comic and game!
