Must-Have for anyone studying fashion

Very knowledgeable of fashion history

Everything was ok, super book

Best book ever!!!

Essential.

I pre-ordered from Fashionary.org and it's finally here! This book is amazing! And, it's pretty. Made from very high quality materials. I had no idea you could fit so much of this info into one little book. I think they were so successful at containing this wealth of information because they cleverly used impeccably detailed illustrations in place of the thousands of words that would be required to describe these topics. For an industry that is 99% visual, this absolutely works if you already have some background in fashion. I am a custom clothier, so this book is a wonderful reference for an industry that I am already familiar with. I don't think that it's detailed enough for someone brand-new to fashion to really learn a lot from; but, anyone would find it invaluable as they continue to learn and grow their knowledge IRL. For me, it seems an incredibly thorough and complex reference source, which has also been beautifully rendered.

I love the book, huge amount of information with a beautiful finish. It is very handy for my design work. A must have for fashion people!

Need more time to read every detail. A great collection of industry facts/info.
