USS Cod WWII Submarine Memorial Photo Museum Guide

Synopsis

The USS Cod is the last remaining WWII submarine left completely in its original condition. It is a national landmark and a very important piece of our naval and historical heritage. This photo guide was designed for the model builder, historian, or anyone with a desire to learn more about one the US Navy's deadliest weapon systems in WWII. There are 120 highly detailed photos (over a third in full color) that give the reader an in-depth view of the ship and its equipment. Topics covered include Radar, torpedoes, the TDC computer, the TBT, and the 5 inch and 40 mm wet mounts. There are detailed photos of the entire outside of the COD above the waterline, that contain a wealth of detail for the modeler. There are inside photos of the conning tower, main control room, engine room, and galley just to name a few! The book also contains numerous historical photos including construction, WWII combat, duty in the 1950's and drydock photos. This COD Photo Museum guide is a must have for any WWII submarine buff.

Book Information

Paperback: 80 pages

Publisher: Oxford Museum Press, Inc.; First Edition edition (June 1999)

Language: English

Customer Reviews

I think the title sums up nicely what this book is about. In booklet form this guide is made up mostly of numerous present day color pictures taken both inside and outside of this beautifully maintained Gato class submarine which is located in Cleveland Ohio. The pictures are what you would expect - the different compartments and the equipment located at the various stations located throughout the sub. There are also several b&w and color photos of the sub taken during construction and a few post war pics along with a brief history of the boat but for the most part this is a picture guide of the

Cod and not a history book. Nice addition to a naval or sub book collection if you can get it for a reasonable price. Hopefully I can get back to Cleveland during warmer weather when the Cod is open so I can tour this submarine some day !
