Angels Coloring Book (Dover Coloring Books)

Synopsis

Angels reign supreme in fiction, in art, and in the popular imagination. These thirty full-page images of celestial beings will enchant colorists with their ethereal beauty. Set against intricately embellished backgrounds and borders, the heavenly messengers are depicted in a variety of poses playing a lute or a harp, sitting in a blossom-filled garden, admiring a pond full of water lilies, surrounded by peacocks or hummingbirds. Spend some time with these winged creatures and you, too, will be touched by an angel!

Beautiful book to color in. The drawings are intricate and lovely. I only have one suggestion, please place each drawing on one page. I can not use markers with this book because they would leak through to the other drawing. Otherwise, this book is wonderful.

I am in the I haven't colored since childhood category but have really enjoyed playing with different colored pencils, Sharpies and Gelly- Stardust pens in this book and just seeing what each one had to offer. I thought the pictures were too pretty to risk ruining with the wrong colors or bleed through, so I just made copies of the pages. It "frees me up to try riskier things and I have less stress while I color too, no loss when it doesn't turn out the way I wanted it to, or I accidentally grab the wrong

Gelly Pen. There's a nice mix of some easier pictures (great for when I'm really tired or when my arthritis flares) and some more challenging ones. I colored one when a close friend died and it was therapeutic and peaceful. :)Update: If you decide to purchase this book and make copies of the pages (since there are pictures on both sides) the 3M white correction tape is handy if the black lines on the edges bother you. You can also reuse the tape a few times before you throw it away if you want. The other option is to buy the newer slightly more expensive "Elegant Angels" book by Creative Haven, Marty Noble. The images in it are printed on 1 page at a time, so there aren't any issues with bleed through (as long as you use a blotter page).

Unable to find my favorite coloring books from "RED FARM STUDIOS" I decided to get a few of these, I'm happy I did.The illustrations really are quite nice, the finished angel could be easily framed. There are 30 of these beautiful pages to bring to life. These pages are however double sided do paints & permanent markers really wouldn't be an option. These pages are also not perforated, so care will be needed when removing them from this book.Each angel will relax you, calm you and give you that quiet time so many of us want. Each page will be craving many , many beautiful colors. 109 crayola box is what I have along with crayola's 30 twistable pencils. They are retractable & can't be sharpened, but I enjoy using them. *NOTE* just a few of uncolored pages , so you have some idea of this book.Hope this helps.THANKS FOR READING, BYE.Ã Â Â^Â,,

I bought this adult coloring book for my friend who absolutely adores angels. She has been very curious about the adult coloring books and has wanted to try one, but never got around to actually BUYING one. So, I decided to take matters into my own hands. An adult coloring book + angels = the perfect solution. She absolutely LOVES it!! In my own personal opinion, it's perfect for someone who is just starting out with the whole coloring hobby. The pictures aren't overly complicated, but they're still very, very beautiful.I also want to add the following. Coloring is a wonderful thing to do for people who suffer from anxiety, depression, chronic pain, PTSD, or etc. It helps take your mind off of the negative and helps you focus on the creative. Don't get me wrong -- it's NOT a magical cure-all!! But it is definitely a wonderful way to help calm yourself down and allow your body and emotions to relax a bit. (I suffer from all of the above and this is from my own personal experiences.) I just thought I'd throw that out there for anyone who is thinking about jumping into the world of adult coloring. :)Angels Coloring Book (Dover Coloring Books)

I have been finding all kinds of thing to buy for my family and friends---not to mention me. So when I

accidentally found a coloring book for my Aunt, I looked for a book for my mom, thinking she might think would be interesting. I could not find one with Chihuahuas. Then went to the next topic: she loves angels and I found this book and it looked exactly like something my mom would pick out. I was right. I only gave it 4 stars because even though mom thought that the book was beautiful, she is disappointed that the pictures are on the front and back of each page instead of only one to a page. She says that the paper is thick, but according to which medium that you use to color it, that will determine whether or not you can use the picture on the reverse side. And the only way to avoid that is to buy the heavier paper/drawing paper and copy it off to color. For instance, water colors or water color pencils would be one medium that could cause problems with being able to use both pictures. And if you had someone that was heavy handed. The coloring pencils/gel pens would show indentations on the opposite side. She said she would do the latter because she said the Angels are so beautiful in this book. Anyway, I am happy that she likes it.

My mother, an artist...rather former artist prior to pancreatic cancer, loves angels and this coloring book far and exceeds her (and my own) expectations. She fell in love with the flowing lines and the comforting zen-like nature of the images. Each Angel was beautiful to her in various ways and she even remembered the original artwork where some images were derived from in order to make the lines into a coloring book. The smiles on her face and how she began working with one of the images with the high-end colored pencils she uses was a joy to behold. This is definitely a coloring book with fine details and not a child's coloring book. I am very pleased with this book and know others will also feel the same way.

This angel coloring book is quite nice, the pages are heavy and the pictures are attractive. There are fine details that may be better for those who have a steady hand but really it's nice for any age. For my purposes I am copying the pages onto cardstock so that the book can be reused.
