Copán: The History Of An Ancient Maya Kingdom (School For Advanced Research Advanced Seminar Series)

Synopsis

This volume collects leading scholarship on one of the most important archaeological complexes in the ancient Maya world. The authors-internationally renowned experts who participated in the long-running Copán Acropolis Archaeological Project-address enduring themes in Maya archaeology. In addition to site-specific breakthroughs involving dynastic sequences, epigraphy, and chronologies, these essays explore questions of broad interest to archaeologists and other anthropologists, including state formation, architecture and space, and the relationship between history and archaeology as well as among archaeology, epigraphy, and iconography.

Customer Reviews

The lengthy volume Copan is the result of intensive research, scholarly seminars ... and extensive collaborations among the contributors over the past 20 years.... This book is important for scholars of the archaeology of Classic Maya nobles in urban areas, and researchers on elites in other ancient societies and students of Classic Maya civilization will find it very useful. It is well written and well illustrated and contains a detailed index and bibliography. --Joel W. Palka
This volume presents the culmination of seven years of intensive multidisciplinary research into the archaeology and history of ancient Copán | Andrews and Fash have assembled an impressive group of scholars â | whose contributions, read together, present a nuanced, multifaceted view of life in classic era Copán | This book will serve as a useful reference and should be required reading for graduate students interested in New World complex societies. --T. Kam Manahan, The Journal of the Royal

Anthropological Institute Vol. 13, no. 1 (March 2007) Profusely illustrated with illustrations, diagrams, photographs and charts, the eleven essays in this volume bring together new findings from the very important archaeological complexes at Copan. The authors are internationally renowned, and all took part in the Copan Acropolis Archaeological Project.... This volume will be a valuable resource for Mayanist scholars in the fields of archaeology and anthropology alike. --British Bulletin of Publications, No. 113 (October 2005-October 2006)

E. Wyllys Andrews is Professor of Archaeology at Tulane University; William Fash is Bowditch Professor of Central American and Mexican Archaeology & Ethnology, Harvard University

A complete study, the latest on Copāñ. Combine it with a book about the rediscovery and you got the picture.
