Get Inside Her: The Female Perspective: Dirty Secrets From A Woman On How To Attract, Seduce And Get Any Female You Want

Synopsis

Do beautiful women pass you by? Do you become nervous, anxious, or frustrated at the thought of approaching a woman? Do you wonder why great guys like you end up alone when grade A jerks score all the hotties? Maybe you are one of thousands of men rejected for absolutely no reason, or find yourself on the receiving end of lame excuses (especially when women never call you back)? Unlock the secrets women will never tell men!

Best Sellers Rank: #54 in Books > Self-Help > Sex #99 in Books > Audible Audiobooks >

Health, Mind & Body > Family & Relationships #138 in Books > Self-Help > Relationships > Love & Romance

Customer Reviews

I purchased this book as I am a huge fan of Marni and the Ask Women podcast. As much as I want to give this book a 5-star rating, it honestly wasn't that good. Each chapter was rife with grammatical errors, and the structure of the book was very poorly organized. Marni could have really benefited from a few rounds with an editor. I recommend you just listen to the Ask Women podcast. If the podcast helps you like it did me buy this book to support Marni, but don't buy it if you are looking for a great read.

I read this twice thinking that the second time through would change my mind. It's written in a blog style lacking organization and the reasoning is so diluted that what little content there is gets lost. In addition the content is really geared towards those with severe social skill deficiencies and for those this book offers very little practical advice. Something like "Intimate Connections" in those cases would be much more useful. Marni has a charming personality and I can understand her fans liking this book and she probably is knowledgeable. This book is just not that useful IMO.

This was the first book on dating I've read. On the positive side, it is a fantastic kick in the rear to approach women. It also does offer some specific perspectives on things that I had not considered. There does seem to be some good advice in here that I will probably refer back to. On the negative side, it is in desperate need of an editor. It is plagued with grammatical errors. How plagued? Think bubonic plague. At times her point just does not come across at all the way she likely intended it. I found myself having to insert words into the sentences in order for it to make any sense. She offers 'assignments' as well, but they could have been more clearly defined. There were a couple of times where I was not really sure what the 'assignment' was, and had to re-read the section. Absolutely horrible grammar. I've just never seen these kinds of errors in a published book before, and find it surprising that Velocity Publishing printed it. I think that this book would have been so much better if it were edited. I'm assuming it was not at all. Maybe this is just a problem with the paperback version? Despite the problems, I'd give the book a 3.5 if it were possible. I'm probably going to check out her blog and videos online.

I picked up this book after reading *Will Work for Women: The Guide on How to Meet, Attract, and Date Women*. The book offers solid advice. I think that Marni is unique in that she tends to give good advice despite being a woman. Many women give terrible advice and she seems to be an exception. The good is that you will get a different perspective on how women operate, and some of her information is truly advanced when contrasted with some older PUA material. I also think that the book has some glaring flaws. I wish she would have focused more on her theory and approach and less on going over the specific examples of guys problems. Most guys who are reading the book know they have problems, the numerous examples of letters from lost souls got monotonous for me. I would recommend this book as an addition to your collection. Also add: *The Game: Penetrating the Secret Society of Pickup Artists*, *The Way of the Superior Man: A Spiritual Guide to Mastering the Challenges of Women, Work, and Sexual Desire*, and *The Natural: How to Effortlessly Attract the Women You Want*. This collection of books will give any man new perspective and new skills.

Marni Kinrys clearly and with great detail answers a lot of key questions men have about how women think and especially the 'Let's Just Be Friends' arrow to the heart. Her book is filled with gems, real-life stories, and powerful tips for men to navigate the different world of the minds of women. If you really want to understand the thought processes that women go through evaluating men ---- this is the book!!!!

In "Get Inside Her", Marni Kinrys articulates her perspective on relations between men and women in a crystal clear fashion. Her to-the-point dating advice is refreshingly honest and suited to men who can handle the truth. What I liked about this book is that Marni shows the reader her perspective in the form of emails from her clients instead of just stating it. I'd like to add that she provides solid guidance to men who want to improve their dating lives without sugarcoating unpleasant truths. Another thing that Marni does that I'm a fan of is that she does not tell men to use pick up lines, and instead advises men to show respect to women while also expecting the women to treat them fairly. A good book by an intelligent woman.

This book is a reasonable approach to understanding the basic biological drives of the female perspective. The best thing about this book is that it avoids all of the distracting post-modern political correctness that complicates male-female relationship. It proposed the theme that women want to meet men and men want to meet women. It isn't as complicated as people make it out to be.

This book helped me a great deal. It helped me to understand women better and to get out of the mess that I called dating, especially online dating. I haven't stopped, rather I now understand better how to ask women out and how to interpret what they say and do. It's not a magic carpet answer to going out. It's simply good sensible information from someone who, apparently, knows. She will tell you that this is not a perfect book for understanding every woman, but on the average, over all, yeah, it works. I feel better and more in control of myself and who I choose to go out with.
