The heart is a fragile thing but love survives and endures.

Synopsis

The heart is a fragile thing but love survives and endures. Days spent in hospital hallways are nothing new to Jenna, a retired professional athlete who now spends her time caring for her terminally grandmother. However, she never thought that the cold and clinical waiting room could produce something as warm and beautiful as Cassie Miller, a critically ill heart patient. As Jenna slowly but surely falls in love with her, she senses that time is running out and she is determined to find Cassie the healthy heart she so desperately needs and deserves.

Customer Reviews

Enjoyed this story a lot. This story addressed a big health issue, but did it very well. I fell in love with the two main characters. Great book

Loved the plot and characters but some editing is needed to really let the story flow and allow the reader to get lost in the story itself.
