This book is a beautiful set of very color-able designs created using simple mathematical principles. It also contains some explanation behind the math. The paper is bright white (always my preference for anything abstract) and fairly thick. Unfortunately, the pages are not perforated and the printing is on both sides. Fortunately, the designs do not run into the spine. I like the book well enough that I'm going to buy a second copy to use for the left-hand pages.

Fabulous ;EXCEPT ...I dearly wish the author would have left the back of each page BLANK, to allow for framing of completed pieces, or non bleed through- depending on medium used. Keep paper same weight if not a little heavier. This is a given otherwise....wish I could copy pages onto a 79 lb art paper which would fit in my copy machine but I have to reduce the sizes of a lot of the originals to get them to go thru a 8 1/2 x. 11. copier. The size they come in the book is perfect, so it would be

so much better if the back of the image pages were left blank...Love this book! Hollis Ward. Ps: Bought 3 for me & my artist son to share!

Bought as a gift for somebody and almost kept it for my self. One drawback is that the pages are double sided, but there are so many pages and the recipient of the gift liked the book so it didn't matter.

I enjoy the Golden Ratio book. It not only has interesting design to color, it also gives a lesson on things I couldn't grasp while I was in school.

Picked up this book for a math enthusiast, and she absolutely loves it! I found the pictures inside so alluring that I almost kept it for myself. There's little excerpts explaining some of the math behind the patterns too! This book is really really great.

Beautiful, meditative, and soothing to the eye. The designs are minimal, and oh so pleasing to peruse. I'm a sucker for great design, and the cover art is just gorgeous, so it's perfect if you're looking for a coffee table book that can also provide some entertainment for guests.

Gorgeous drawings, not sure I want to destroy this book by coloring in it, but I may choose the ones that I feel I can do justice to, to color in.

Wow! Well thought out and fun. Excellent outlines to color - or just enjoy in black and white!
