The Fast Track To Your General Class Ham Radio License: Covers All FCC General Class Exam Questions July 1, 2015 Until June 30, 2019

The
Fast Track
to Your
General Class
Ham Radio License

by Michael Burnette, AF7KB

Synopsis

Memorizing answers is hard - and boring. Learning is easy! If you've made the decision to open up your ham radio world by going for the General Class license, great! General is certainly more challenging than Technician, but The Fast Track to Your General Class Ham Radio License explains the reasoning and technology behind each correct answer on the General Class exam so you'll understand and remember the subject matter. Created by an experienced ham and adult educator, it's like having your own, patient, experienced, good-humored mentor for the exam. To get your General Class license, you must pass a multiple-choice test. The General license test consists of 35 questions drawn from a pool of 462. Memorizing the answers to 462 disconnected questions is difficult, but The Fast Track makes getting your upgrade easier by explaining the logic behind each correct answer. It's simple: When you understand the material, and you have a context for the material, you remember the answers and pass the test. Best of all, once you've passed your exam you'll have a solid grounding in ham radio basics. Includes every possible question and every answer. Correct answers clearly marked in bold. Precise instructions for how to locate a testing session, how to prepare, and even what to bring - and what not to bring - to the test. All technical topics explained in clear, plain language. Step-by-step instructions to solve all the math problems. Test taking strategies. Hints to easily solve many questions and avoid the traps in the test. Written in "learning order", not just the order of the official question bank. Covers questions that will be used until June 30, 2019.

Customer Reviews

At last! A study guide that is the perfect blend of questions, explanations, and just enough supporting material to keep it all interesting! I have been practice testing for months, passing 1 out of 10-15 attempts. After reading only half of this book, I took a couple of practice exams, and passed easily. I have since finished the book, and have not failed another practice test. What a confidence boost for when I take the test for real in a couple weeks. I VERY much look forward to the Extra class book from this author.

Excellent study guide. The author not only give correct answers for all the possible questions on the exam but explains why and at times goes a bit further . I used only this book and aced the exam on my first try. I also used the author's book for the technician exam. I am looking forward to his book for the extra exam.

Similar to my experience with the Fast Track To Your Technician Class Ham Radio License...I bought the book about 4 weeks ago (August 6th), read it in just over a week, practiced every day on HamExam.org and took the test today, September 2nd.I passed the General License test this morning!Thanks Michael!My only frustration was that the Table of Contents did not work in the Kindle Edition.

I love the "Fast Track" books. I got my Technician license with Mike's Technician book and only missed 2 questions on the test. I am hoping for the same or better results on my General. Mike makes things interesting and fun with his "Fast Track" books. I will definitely get his book on the Extra license if I decide to pursue that test!!

Excellent Book. Well written. Great breakdown of difficult concepts. Colleen Edwards KI7DRS

Michael Burnette does a great job to help prepare one to pass the General Class Ham Radio License.

Using these books and audio are like studying with a buddy. Michael is a great teacher that makes learning the material easy and fun. The ONLY way to study for your test. Will use his guide for extra class when it comes out. first

love the Audio book as well as the digital version to follow along.
