The Precipice - The Thrilling Post-Apocalyptic Survival Series: No Sanctuary Series - Book 2

Synopsis

It's been days since the terrorist attack and the nation has torn itself apart. Food and medicine are scarce and daily life has become a struggle for survival. Two survivors, thrust together in the most unlikely of circumstances, travel from Maine to Tennessee in search of family, but as they travel the scarred land they are about to discover that this attack has a far more insidious purpose than they first realized.***Frank Richards has been an accountant for most of his life, but when the economy took a turn for the worse he was forced to take the only job he could find - driving tractor-trailers cross-country. Thanks to his parents being dyed-in-the-wool prepper and survival experts he's learned enough to keep him alive. If he wants to make it from Maine to Texas, though, he'll have to figure out how to get along with the mysterious stranger that he's picked up along the way. With skills as strange as her background, Linda's far more prepared than Frank to survive in a fallen world. But in a world with no safety, no security and no sanctuary it takes more than one person to survive.No Sanctuary is a post-apocalyptic thriller/survival series that asks the "what if" question that lurks in the back of everyone's mind. What if there was another attack? What if it was larger than any other? What would you do if it came without warning?No Sanctuary is planned to be a series that will contain 7 novel-length books, published once every 4-6 weeks.

Customer Reviews

This books reveals more about the two main characters. Linda is the truly strong one of the group. The scenario of terrorist attack and the multi-pronged nature of it is truly disturbing.

All of Mike's books are great. When one of his books comes out I stop reading whatever I'm reading and read his. Then when finish I go back to the other book.

Sort book. The first two books could have been combined into one. There seems to be a lot of good surrounded even with so much destruction. If there's a third book, I don't think I'll buy it.

Reading this series now, can't put them down, can hardly wait for the next book. His characters are real. You hate to see the book end, every time.

Too short. I know most author's extend a story to more than one book but I believe this was too short between books. This is the new trend. I like novels and novels have a lot of words.

WOW, just to think that something like that could actually happen here. Good writing and an excellent story.

A very good read. I had to keep making time to get back to reading the story.

Part two of the No Sanctuary series, this book is quick and easy to read. But it is certainly not comfortable. The main story, written in the present tense which both imparts immediacy as well as an almost news item quality, follows Frank, a driver whose lorry exploded along with the majority of others in a large area of the USA, a terrorist attack which totally destabilised the workings of society. In the previous book, he eventually partnered up with Linda, ex military, who has a working van but they have been ambushed and things are not looking good. Somehow they will have to escape the methamphetamine gang to survive. Interspersed with this personal tale of the two protagonists is the background story, clearly delineated by being presented in italics, of ongoing terrorism. It paints a

truly horrifying picture made all the more terrifying by a plausibility that it could, just possibly, become true. My thanks to the author for freely gifting me a prepublication copy of his book without any expectations beyond my reading it. I did, and was impressed by this apocalyptic adventure with a difference. My only complaint is that I wish it had continued for longer, but I look forward to the next instalment
