Customer Reviews

I bought this book to complement the Lonely Planet Australia Guide (Lonely Planet Australia (Travel Guide)Â (\$16.19). However, the information is pretty much the same in both books. I didn't find anything really new, or more detail on the attractions around Queensland in this book. To be honest, it seems like the Travel Guide had more information about Cairns. I would recommend you go ahead and spend the extra \$3 on the bigger book. Even if you only use the Queensland part, at least you have the option to use rest. I decided to the return this book and spend the money on a map of Queensland to complement the travel guide.

This book should be free! It provides general ideas and nothing more. It would be nice to have pictures of commonly seen fish (displayed at every boat) and corals, their behaviors, things to avoid (for example, box jelly fish picture, potential danger, full body suit as a means personal protection, antidote should be administered within 4 minutes). The purpose of the book should be enrichment of the reader Great Barrier Reef experience instead of simple advertisement.

Great information for trip planning, tours and activities in Queensland, AU. Contains helpful advice, history and detailed info on the area. Wonderful maps, reviews of hotels, restaurants, tours, transportation, itineraries, practical info and safety

tips.http://www..com/gp/product/1741794633/ref=cm_cr_rev_prod_title

The book itself is OK but does not work as a kindle, the maps are not visible and it is difficult to navigate

The written content of this book is decent, but the Kindle navigation and lack of graphics and pictures is a problem. I'd say this was one of the lower quality kindle experiences I've had.

Have lived in Queensland and this supplies comprehensive info on the best places to go and see, not always on the main tourist routes which is a big bonus.gave a a present for friends going to live

Not enough pictures and not enough detail on the descriptions of the site for my liking. Definitely better than nothing, but this is no Michelin guide.

It was helpfull but it needs an update..
