National Geographic Readers: Level 2 - Pandas

Synopsis

The whole world loves panda bears. Everyone loves to watch them play, climb, cuddle, and chew. But careful, they can scratch too! Just look at that tree! Pandas live in wild places very far away, and they are the STAR ATTRACTIONS of every zoo that keeps them safe and well, all over the world. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Grade Level: Kindergarten - 3

Customer Reviews

ANNE SCHREIBER is a graduate in Science Education from Cornell University and began her career as an elementary school teacher. She wrote the science content for the Magic School Bus television series. She has written more than a dozen books for young children. She lives in Brooklyn, NY.

My son had to do a research piece for second grade. He's a good reader, didn't have any problems reading and understanding this book. I like that though this is full of excellent facts, it still has beautiful engaging photos and interesting facts, easy table of contents, and beautiful, easy to read layout, color and sections.

Great read for my 8 year old. Bright vibrant colors and pictures. My daughter had no problems with the words, or content. This is an easy read for my Panda loving little one. It was a great little surprise in the mail. Well written with great pictures. I would recommend this book to animal loving children.

I love these books. I'm constantly looking for interesting nonfiction texts for my classroom. These are perfect for my third graders and they can not get enough of them. Kids are constantly coming up to me and telling me new facts that they have learned from the books in this series. Great for science, reading, social studies, history, vocabulary, etc. Highly recommended!

Well written with excellent photographs. This book is very engaging for young readers. I send it home with a stuffed panda in a pet carrier and children read the book and make "friends" with the panda. Then they write in a journal about their adventures. I find it's a great way to help children become aware of endangered species, pandas in particular obviously.

Used with on level and above level reading ability students in first grade to teach research and text features. Students were completely engaged!

I'm an avid "Panda Cam" watcher of the baby panda at The National Zoo in Washington DC. I have introduced my god child to MeiXing and BeiBei through the panda cam and she was captivated. I ordered the age appropriate national Geographic book on pandas so she could really learn about them. It's a great book for her age and she loves it.

MY NEPHEW WANTED A STUFFED PANDA FOR XMAS SO I GOT THIS BOOK TO GO ALONG WITH IT. HE LOVED IT

Perfect gift for my 8 y/o grandson who is obsessed with Pandas. Nice quality and great price.
Thanks
