Customer Reviews

Absolutely happy!!!! Thought I'd never find this in great condition and affordable, so this melonhead is ecstatic!

the condition of the book matched what was said about it and there are not many markings in the book

This is the COMPLETE guitar tab for Blind Melon's second album, Soup, in it's entirety with guitar solos and all! 'Nuff said.

To: Anyone out there who appreciates creative, talented musicians - My message is very simple -This is one of the best albums I've ever heard! And if you like jamming on the guitar, this book will definately help. This book is chocked full of every guitar note you hear on the album, but be careful, if listen to this album too many times, you may end up like me - a melon head!

This is a tab/sheet music book of one of the best unheard albums of the ninties. If you play guitar, electric or acoustic, get the Blind Melon album: "Soup", and the tab book. This is a very excellent souce of music.

The product was delivered right on time and in great condition. Flawless transaction and would do business with them anytime.

This is simply the sheet music to Soup ... it's not worth the money unless you can't find it in regular music stores. It's alright if you just WANTED sheet music, but don't expect to find anything special about the band.
