John Howard Carpenter is a director, screenwriter, producer, and composer best known for his work on Escape From New York, Halloween, and Prince of Darkness. Eric Powell is a writer and who has contributed work on such comics titles as Buffy the Vampire Slayer, Angel, Hellboy: Weird Tales, Star Wars Tales, The Incredible Hulk, The Avengers, She-Hulk, the Simpsons, and he is the creator of the award-winning comic book series The Goon. Brian Churilla is a comic book writer and artist, and is currently drawing the books Big Trouble in Little China for BOOM! Studios and Hellbreak for Oni Press. He is also the creator of the critically-acclaimed Oni Press series, "The Secret History of D.B. Cooper". His artist credits include: The Avengers and the Infinity Gauntlet, The Sixth Gun: Sons of the Gun, The Anchor and The Engineer.

I thought this book was a faithful continuation of the movie. I'm a big John Carpenter fan, and Big Trouble is easily one of my favorites. I was really excited to finally read this. The writing was really good. Jack Burton's character was really well written, and we get some background information on his character that was not in the movie. I did think that Wang's character was a little over the top compared to the film version. The plot is well paced and plotted, and really fits into the mythology set up by the movie. I thought the art was above average as well, however, some panels are muddled and it can be difficult to tell what is going on, but those panels are few and far between. I highly recommend this book to any fans of the movie.

I saw the issues on the shelf at the comic store and breezed through them not thinking much of them. I waited until the GN came out and still didn't buy it. I got some tax money back and was like. F it, I'll try it. The original movie is my favorite movie of all time, I have seen it over a hundred times so I had little to no expectations for the comic for some reason. I love this book. It was quirky and fun. I just love it. Brings me back to the movie I love, while exploring some more of the universe they created. I would recommend it to any BTILC fan!

This is an absurd, grand, otherworldly follow-up to the film of the same name, taking place (seemingly) not long after. I like that John Carpenter (director of the film) was involved in the storyline. Since we'll never get a sequel in film-form, this is the form the sequel takes. An almost surreal chase between worlds with zombies and spirits of that netherworld, this has got to be one of the most enjoyable graphic novels I've read and gawked at in ages. I'm looking forward to getting hold of Volume 2.

Surprisingly good comic continuation of the movie. It recaptures the spirit of a movie and character that I fell in love with at a young age. It certainly doesn't update or modernize, and that's a good thing. I felt a little silly as a 40 year old man reading it, but maybe that's why I enjoyed it.

This is awesome. picks up right where the movie ended. Artwork is good, good colouring. Was a nice read.

The illustrator took some serious artistic license in his interpretation of Jack; he looks more like Bruce Campbell than Kurt Russell

If you are a fan of big trouble in little China than I highly recommend picking this up. It picks up right after the film ended and has the same humor and style as the film. I highly recommend buying this.

Fantastic read and spectacular continuation of a classic! John Carpenter and Eric Powell have created what is sure to be a classic in comic books and a victory in cult classification. I loved it and I cannot wait for the following volumes to be released. :)
