Customer Reviews

This book is great and not strictly for adults, my 15 year old son is interested in African Art and has been showing his friends. The Masks are illustrations of traditional African masks. My husband collects them and says that they are close to real, it feels good to share both are passions with one book. It was good to find a book with some cultural information. Thanks

I like the book overall. Just expected more details in the masks themselves considering most African masks have significant details and this book really lacks details.
