Customer Reviews

Little smaller than I expected but words are large and chords clear. Each song includes chord diagrams before the song. Whether you're just learning Neil for first time or just needing brushing up, like me, this book is a great deal. Combine it with the CD you have access to some 35 songs.

Neil Young is a great songwriter. Good book and interesting selection on songs.

What can I say that you don't know. If you want to play Neil's Greatest, or at least most of his greatest. This book is for you. I bought this to replace mine that I lent to someone back 30 years ago. I love his music and this guitar book is one of my favorites.

This book was used but in very good condition. Make sure you buy the full size edition with all the music and tablature for guitar and piano. There's a mini book out there with a few riffs and lyrics, it's

useless.

I am just starting out on guitar and I really appreciate this book. I doesn't have any long solos transcribed, but there ain't room for them without sacrificing something else. You learn the chord structure, the melody, piano accompaniment and best of all, the chord fingerings and guitar tunings. If I want to learn the exact way the song is played, I play along to the CD over and over again. This book will get you past the rudiments of learning the song, you have to do the rest.

Clear recording.A must for any Neil Young fan.

Great camping book or fireside sing along
