Kaplan GED: Complete Self-Study Guide For The GED Tests

Synopsis

Comprehensive content review, strategies, and practice for all sections of the GED (General Education Development) from a top expert. The GED is a high school equivalency test that is recognized by educational institutions and employers throughout the United States and Canada. Every year, hundreds of thousands of individuals obtain GED diplomas or certificates as a first step toward academic or professional advancement. While other GED guides are designed for classroom use, Kaplan GED is a self-study program. This guide includes:

- In-depth review of key content areas
- Full-length practice test
- Diagnostic test with targeted areas for score improvement
- Detailed answer explanations
- Expert tips and strategies
- Review of all five sections of the test
- Hundreds of practice questions to reinforce key concepts
- Helpful instructions on using the Casio fx-260 calculator

Best Sellers Rank: #519,389 in Books (See Top 100 in Books) #129 in [Books > Education & Teaching > Test Preparation > College & High School > GED](#) #2156 in [Books > Education & Teaching > Studying & Workbooks > Study Guides](#) #3836 in [Books > Textbooks > Test Prep & Study Guides](#)

Customer Reviews

Caren Van Slyke is a nationally recognized expert on the GED. She has been involved in GED preparation for more than twenty years as a teacher, editor, and writer. She is the founder and president of Learning Unlimited, which has developed GED materials for the PBS LiteracyLink(c) GED Connection series.

TOC, Chapter 1

Great book!

I really like this book so far because i have taken my time with it and i don't have to shell out a lot of money for a tutor every week to understand the concepts in each section! I recommend it to anyone who doesn't want to go to a tutor or a adult learning school. Just be consistent with it because it takes a lot of work with the sections that you might have trouble understanding. Like myself, i don't like science or mathematics very much so those that i focus on those subjects instead of reading, writing, english, or us history because those are my good subjects, lol!

Helped my son pass his GED ! thank you

My son couldn't prepare better for his GED without this book . gives the student the opportunity to study and learn not only without a teacher, but also with an easy step by step learning process and well organized study guides with tips and tricks for almost every obstacle one may encounter during the exam.great book . my son passed with a score of 2830 .

You purchased this item on September 2, 2010. A little late on the review but I do have to say, I read a little bit of it and then unfortunately misplaced the book. Because of my little mishap, I will give them 5 stars nonetheless. Hope to find where it disappeared to so I can benefit from this book. But, from what I was able to read before misplacing it, it is a great book to have and it is easily understandable.

The book is okay, but be aware that there are numerous errors in the text. Many of these, unfortunately, are in the practice exercises, so if you check your work with the answers in the back of the book, you will likely get 1-2 wrong in several exercises. I am not aware if there is an errata sheet(s) available from the publisher, as my time frame for testing was short and I just wanted a quick brush-up.Explanations of the material are sufficient, and there are many exercises in the book.I used this text along withÃ Â McGraw-Hill's GED w/ CD-ROM: The Most Complete and Reliable Study Program for the GED Tests. I would recommend anyone seriously trying to get 750+ on the tests, use both books, as the Kaplan title doesn't have a CD with practice tests, and more exposure to the material allows for an expedient passing of all the challenges associated with the GED exam battery.How I got 770 average -Science: Spend a few weeks watching T.V. on channels

that carry nature shows to buff up on terms related to animals, plants, and geology in addition to the texts. This will allow you to get familiar with terms that aren't in the books, but are on the GED exams. If you have solid reading skills, the science portion will be a breeze. Math: Do all the practice material in the books. Take the practice tests on the McGraw-Hill CD, and polish up any area that's lacking, by revisiting both of the texts. Writing: Have a solid grasp of a 5 paragraph essay. Be prepared to talk about life experience, my question required discussion of a past experience. If you have trouble, trace your hand on a piece of paper. Put your Main Topic in the thumb area, and your conclusion in the pinky. Use the 3 remaining fingers for paragraph topics -- when you change idea, change paragraph. Check your spelling. Use a few big words that are well placed. Good idea to type yourself a practice essay in a word processor, then use the thesaurus to expand your vocabulary. English: Have a good idea how to use commas, verb tense, and subject-verb agreement. Understand where a period is needed; and when a semicolon can be used. Reading: Be prepared to put your thinking cap on. Not all of the answers will necessarily coincide with the text. It will require you to think outside of the box, and perhaps interpret what the writer was saying. When testing: Read every question word-for-word, all the way to the end. On two of my tests, the answer appeared to be one option easily chosen -- but certain phrases toward the end of the prompt made this untrue. If you are concerned about a particular section, visit the testing center as many have Adult Ed. GED classes that can prep you, free of charge.

I got my GED. It was worth the price, which was not a lot, to have the book as long as I needed & be able to write, highlight, post-it pages, etc. I could have checked it out at the Library, but who needs that additional pressure of returning it &/or late fees. I'm sure I saved by buying it in lieu of paying late fees.

I must say this book allowed me to master even more the basic skills for the GED test. I am currently attending college. And this book paved a path for excellence. Purchase it if you need to take the GED ! Good luck !
