The text's end-of-chapter questions, tax return problems, and test bank problems all reflect the dozens of standard changes that result from yearly cost of living tax rate increases and phase-ins and phase-outs of tax benefits.

On March 8, 2015, we unexpectedly lost our dear friend and co-author Gene Whittenburg. As the original author of INCOME TAX FUNDAMENTALS, Gene was critical in designing the forms-based approach that the book has used successfully for more than two decades. It is simply not possible to quantify the degree of our loss. Gene started his life in small-town Texas; entered the Navy; served his country in Vietnam, earned Bachelor's, Master's and Ph.D. degrees; and served as a distinguished faculty member at San Diego State University for almost 40 years. The outpouring of sorrow and gratitude from countless former students and colleagues are a wonderful tribute to Gene's love and devotion to teaching. We intend to continue to honor Gene by upholding his standard of publishing excellence for many years to come. Steven Gill is an associate professor in the Charles W. Lamden School of Accountancy at the Fowler College of Business at San Diego State University. He received a BS in accounting from the University of Florida (Gainesville, FL) an MS in taxation from Northeastern University (Boston, MA), and a Ph.D. in accounting (University of

Massachusetts 2008). Prior to entering academia, Dr. Gill worked twelve years in the field of accounting, including roles in public accounting, internal audit, corporate accounting, and, ultimately, vice president of finance. Dr. Gill's research interests include a concentration in taxation, including mutual funds and college savings ("529") plans and wider interests in tax compliance behavior. He has taught at both the undergraduate and graduate levels and his teaching interests include taxation and both financial and managerial accounting. Dr. Gill is the author of INCOME TAX FUNDAMENTALS, a co-author on FEDERAL TAX RESEARCH and an editor on the 2018 SOUTH-WESTERN FEDERAL TAXATION series. Martha Altus-Buller is a CPA with more than 25 years of tax accounting experience. She attended Reed College in Portland, Oregon for two years, holds a B.A. in Mathematics from the University of California at San Diego and a M.S. in Accounting from San Diego State University. Ms. Altus Buller was awarded the Sells award for scoring among the top in the country on the May 1983 CPA exam. Her practical experience includes work as a tax manager for Arthur Young, now Ernst & Young, one of the Big 8 accounting firms at the time.

Over priced book for something that requires a new addition every year. Also, peppered with weird politically slanted comments. Also, not very well written. The concepts and details of the rules are just not cohesively laid out within the writing. They'll have a chart summary of rules in one section that leaves out base numbers and barely acknowledged within the writing. You have to do all the little study quiz things to make sure you get the knowledge of some of these rules. It's just not plainly stated and straightforward. I kinda hate this book. It was required for a class, and I just feel like there has to be a better book and system for keeping up to date on changes. I would happily buy a \$200 ebook that would promise free updates to the text for at least a decade. It's 2017, y'all.

Cheaper than the hardcover book, by a great amount. Has all the pages, and really helped me get through my online class.

The Book is in great condition. Thank you very much

Unfortunately, this book was required and since tax code is changed so frequently, I couldn't purchase an older book. I figured I would make the most of it by using the included H&R Block code that came included with the book. WRONG! The stupid program is only available for Windows. So, I'm stuck with an overpriced book with a worthless code from H&R Block. Thanks for that! It's no wonder people are running away and using Turbo Tax
