This is exactly what my students with low reading levels need!

Good resource book for grade schoolers through high school.

I'm using this book in my classroom. I like it and my students like it.

Where can we get a answer key to this books? My teacher can use one. We need to get a book where she can look for the answers

When I received this product I realized that not only was it the wrong book but I was forced to return the book (at my cost) to receive a refund on the original book that I THOUGHT I was getting. Bad experience. Not the book I ordered and had to pay to return incorrect item. No replacement of the book was suggested or provided
