Hands: A Complete Guide To Palmistry

Synopsis

In Hands, Enid Hoffman takes a step beyond palmistry and explains the significance of the entire hand in relation to personality and the whole body. By describing all parts of the hand, from the fingernails to the wrist, Hoffman teaches readers how to analyze the information the hands contain. In a step-by-step fashion, she takes the reader over the entire terrain of the hand. As you become familiar with each part of the hand you will learn how to use it as a road map of your personality. Extensive illustrations provide an excellent learning tool and visual guide.

Customer Reviews

Excellent book of the study of palmistry. Most informative.

Ok, covers a lot of different areas of the Palm.. I have a lot of palmistry books a lot of them are contradictory to each other, my advice, practice for your own conclusions!

I used this book to help get my friends into my interests, and it worked great. There's lots of information in here and it's all easy to read and understand, and even in sensible order unlike some other books I've gotten. Not to mention it's an amazing deal buying used on for this book. A lot of the information you'll find from your hand is true, although sometimes it doesn't seem like it, you'll find it closer to home than you think. I keep it out on my table for quick reference and to read whenever the urge hits. I fully recommend this book.

It's a good book.

This is MY favorite palmistry book. I use it for all of my palmistry classes. Basically, this is the only book you will need in your library.

I have had an older edition of this book since 1985. I received it as a present when I was 15 and have had fun with it ever since. It is easy to read and understand. The way the book is set up lends itself to being an easy reference guide with good diagrams and descriptions. I don't necessarily advocate a whole-hearted belief in palmistry, but its great entertainment!! I have "read" hundreds of palms for friends and family members and have had a great time with it. This book is an easy way to get started and have a little fun.
