Margo Lestz is American by birth but now divides her time between London, England and Nice, France (with a few other places thrown in for good measure). She enjoys the fact that life in a foreign country is never dull and every day is a new learning experience. She describes herself as a perpetual student and is always taking some kind of course or researching a moment in history that has caught her fancy. She's curious by nature and always wondering who, what, why, when, where, and how. Margo shares her adventures (and her questions) with Jeff, her husband of many years. She enjoys travel, history, observing cultures and traditions - and then writing about them, of course.

This book will teach you interesting facts about Provençal customs, traditions and history as well as give you ideas about what to see and where to go while in Provence. You will meet monsters, dragons and saints, gypsies, bulls and white horses plus learn about kings, Guardians and scholars. And that's just a selection of what is on offer! For a short break in Provence, this is the only guidebook you will need. It is quick and easy to read; so a perfect choice to get you into the mood for your holiday in Provence if you're lucky enough to have one planned. If not, you

will at least feel like you’ve been there. It’s also an entertaining and informative read that will ensure you want to return to Provence to discover all it has to offer. I was sent a copy of this book by the author.
