cool

Bought this for nostalgic purposes; it brought back many memories.

A welcomed addition to MMI. Still would have liked a few more charts at the end so I didn't have to go to several books to get all the info I needed.

I got this to play with my son and it really brought back the memories from my own childhood. The

book was in good condition and just as I remembered it!

Amazing product, I used to play D&D when I was younger and loved it. About 10 years ago I sold all my D&D products. So now I'm 42 and wanting to get back into it, I decided to start building my collection up. MM2 has all the info you need about monsters for D&D.

a great edition to my RPG collection

Book was in very good condition, and the book is very usefull, it has many uncommon creatures perfect for high level characters
