Scions Of Change (Cadicle #7): An Epic Space Opera Series

Synopsis

Change is on the horizon...As Raena's and Jason's training with the TSS nears completion, the return of the Aesir is imminent. Whether the Aesir are adversaries or allies will be put to the test as the final pieces of the Sietinens' plan to bring down the Priesthood fall into place. Facing an unstable political landscape and with the future of telekinetic abilities among the Taran people on the line, Wil and his family must wage one final war to correct past injustices and usher Tarans into a new era of peace. Scions of Change is the seventh installment in the Cadicle series. This novel brings together the final pieces for the High Dynasties to attempt an overthrow of the Priesthood and restore equity in the Taran worlds.

Customer Reviews

4 1/2 stars. The concluding installment of the Candicle cycle. Plans for societal change, eliminating the Priesthood and potential conflict are pushed into play. Lots to weave together that kept the story

a pageturner. The only thing keeping this entire series from 5 stars was: at times the dialogue seems a little scripted, (think B-movie) vs a more natural flow. All in all, the 7 book series was enjoyable and in true space opera fashion, engaging to want the next installment. And nice that content went beyond war to reframing a society that has been forced off track. I will be watching for the next Saga cycle.

Great story and action. It does not disappoint. Looking forward to the next book in the saga. Love the characters and see generations fulfill their mission. Thanks, Amy.

Great ending to an awesome series! I really enjoyed reading this series. The author has created a unique universe, and great characters. I enjoyed the storyline immensely, full of twists and great dialog! I highly recommend checking this series out!

This entire series is entirely readable, exciting, and tons of fun. Plus, this, which seems to be the last in this series, has left the door open for more to come, which is delightful! Love these books, and am looking forward to more!

Outstanding series of books.

Really enjoyed these books! The overall story arc was great! I think Cris and Will were much more developed than Raena and Jason, but I enjoyed the entire series! Recommend it to anyone who enjoys a good space opera!

The children of the Cadicle, Raena and Jason are finally put into position to help bring the reign of the Priesthood to an end. Raena has been moved to Sietinens' High Dynasty to take her place as future heir, while Jason is moved in position to train teams for telekinetic warfare. Ryan, the heir to the Dainetris Dynasty is groomed to ascend to his place. With the other five High Dynasties in the wing, they must be brought on board before an all out attack can be launched against the Priesthood, and even then it may not be possible without help from the Aesir. The seven Dynasties are brought together for this final volume: Joining the Sietinen and Dainetris Dynasties are Vaenetri, Talsari, Baellas, Makaris, and Monsari Dynasties. Wil discovers that both the Priesthood and Aesir want something on the other side of a rip in the fabric in the Rift, which could be a hole into another dimension. The rip is acting like the mythical Sirens, calling the unwary to approach its sweet call.

Will it give them godhood or destruction? Wil intends to keep that from happening, for heÃ¢ÂÂs tasted the call also, and knows its danger. Although I enjoyed all the volumes in this fantastic world building science fiction yarn, I think this seventh volume is the best in the series. Basically, each story was a similar plot, the Priesthood moving children of the Sietinen Dynasty towards the birth of the Cadicle, Wil Sietinen, who was to destroy the Bakzen, but it doesnÃ¢ÂÂt end there; it must now follow the CadicleÃ¢ÂÂs children for more plans of the Priesthood and Aesir. However, they had not counted on the fighting spirit of the Sietinen children or their powerful telekinetic abilities. Highly Recommended.

Amy Duboff has outdone herself with the final book in her Cadicle series. Always an exciting writer, the characters of this final chapter really come to life in an adventure that brings all the stories together, pitting the Priesthood against Wil, his family - and the future of their universe. With pisonic powers, interdimensional travel, far-flung alien civilizations, this series is really a great read. It's also a "family-friendly" adventure - while there is romance there's no graphic sex, the conflicts are exciting but not blood curdling - and the action is set at a pace that would keep any sci-fi fan from pre-teens to retirees turning those pages - or virtual pages! The entire series is Highly Recommended!
