Customer Reviews

My grandson is almost 8. He is addicted to Minecraft. Although he is an excellent reader, above second grade reading level, he is not fond of reading because he does not find the books interesting. Well I ordered him the entire set of this series. Probably a dumb idea because had he not liked them I would have been stuck with 9 books. Luckily, I judged correctly. For the first time

since he had discovered Minecraft, the video game, he was reading rather than playing. It confirmed Grandma's theory that it was not the reading he did not like, it was the subject matter! Yeah Grandma. So the books get 5 starts from both of us.

I bought the first three books of this series just to see if my little Minecraft fan would be interested in them at all. Let's put it this way, that was in December of 2015, it is now the middle of February 2016 and I just pre-ordered book 10, and my son is praying that they keep writing for this series!

My son likens reading to corporal punishment, so I am always on the lookout for fun books that pique his interest in reading. As a Minecraft "zombie" himself, I just knew my sweet baby boy would relate to the trials and tribulations of the titular Zombie in this series. My adorable and brilliant cuddlebug devoured all of the presently-available installments and we are both now anxiously awaiting the next. (Seriously. Can't you just churn these out in groups of four or something, Mr. Zack Zombie?)

My 8 yo son is not much of a reader but loves Minecraft. I was hoping that buying these books would get him more interested in reading and not so much of a fight when it comes to his 10 min reading that he has to do nightly for school. And this book has done the trick. My son will even ask to read a little longer sometimes because he is "at a good part." lol Would highly recommend for any young reader that likes Minecraft.

My 7 year old son got the first book of the series for Christmas. He sat down and read it that day. He has since read, and asked for, each of the books. He can be a reluctant reader so this series is perfect to get him to read on his own, willingly. Some people have complained about the writing style and level. Obviously these are not meant to be great literature; however, they have interesting stories and for kids my son's age they are great.

I have bought several of these books for my 10 year old grandson who is being home schooled. He did not like to read but has really come to enjoy these. They are written in a fun diary form. The writing is larger print (yet not childish) and written in short chapters. I initially wanted him to read more "substantial" books but then I realized more than that I want him to learn to love reading. Better books can come later once he has established that. I will continue to buy these for him till the series is complete.

Love! Love! Love these books for my 8 year old. He has always struggled with reading and hasn't had the interest in any books before. I can believe how much his fluency has improved, he is flying through the series with such excitement and joy! He has finally connected with reading. Thank You!!!! Please keep publishing more books.

Kids love this book series have to get the whole set.
