Customer Reviews

PASS THE LEED® GA V4 EXAM WITH THE HELP OF SOMEONE WHO’S BEEN THERE The

Guide to the LEED® Green Associate V4 Exam is a motivating, engaging guide to LEED® design, packed with expert advice from one who has taken and passed the exam. Fully updated with the latest advances in sustainable design thought and technology, this book goes beyond traditional study guides to provide full coverage of the exam topics, plus expert tips on preparing and taking the exam itself. The information is organized clearly, with sample questions and flashcards throughout, and the companion website features additional study aids including interactive flashcards and practice exams. Understand the LEED® credentialing process, and the fundamental concepts of sustainable design. Study the strategies and technologies of LEED® design, from site selection to atmosphere. Discover how best to handle water, energy, and waste during the construction process. Gain insight into effective exam prep methods, and know what to expect on test day. Test your knowledge with practice exam questions and interactive flashcards on the companion website. Professionals eager to prove their skills will find the Guide to the LEED® Green Associate V4 Exam to be an invaluable one-stop resource.

MICHELLE COTTRELL, LEED® AP BD+C, ID+C, O+M, Homes is President of Design Management Services. She has helped project teams nationwide pursue LEED® certification, including the new North American BASF Corporate Headquarters, ultimately earning double Platinum LEED® certification under both the Core & Shell and Commercial Interiors Rating Systems. She has published 6 books, including the Guide to the LEED® Certification Process: LEED® for New Construction, LEED® for Core & Shell, LEED® for Commercial Interiors, and the LEED® exam prep series.

It's not easy to give a rating here, first of all I did pass. Apart from the typos that some people mentioned, I need to talk about the visuals and illustrations. It happened that I looked at the LEED core concepts and V3 LEED GA study guide by GBCI, these are a lot pricier, but the level of clarity and visuals are really helpful there. At the end this is not a reference to keep, if you can get the original guides second hand, it'll be great.

Exact information I needed to pass the exam. Thanks Michelle!

I just took the LEED Green Associate Exam, and I passed. This book was a good summary for the LEED core concepts and had very good practice questions in the book and online. There also were flash cards which were helpful. I recommend it.

I blasted through this book in a weekend and crushed the exam with 2 questions wrong. A few grammatical errors, but the content completely prepares one for the test.

great condition

What the world needs now

There is really no need to purchase this book. The format and layout of the book is OK, but the problem is with its content. There is no "meat and potato" in the book, only shallow discussions based on free information you can get from the USGBC. There is not enough information in the book for you to pass the exam. This book has 256 pages, but only has 181 pages of content. The rest are just useless stuff. It has 32 pages of very simple flash cards, you are much better off making your own flash cards. Save your money, no need to purchase.

Looked Great, exactly what I needed!
