Customer Reviews

The book is awesome! it's just what I was looking for. Thanks you guys are the best! Truly recommend to anyone.

While I find the Beckett web site very easy to use, this printed price guide is organized so poorly as to make it nearly impossible to use. I realize that there are many different card makes and variations, but Beckett makes almost no effort to make finding the card you're seeking easy. The Contents section at the beginning of the book is woefully incomplete and there is no index or taxonomy. I edit and produce technical books for a living, and I can tell you there are much better ways to organize the book to make the user experience far less frustrating. While a detailed TOC or taxonomy would eat up 20-30 pages, it would make using this price guide far, far easier. Beckett

could incorporate a better thumb tab scheme, make use of running heads and even divide the guide into chapters or sections for each make (Topps, Upper Deck, etc.). The Beckett Baseball Card Price Guide is organized in the same frustrating manner. Given that Beckett is the leader trading card pricing, it would seem to me that it could produce a guide that is more user friendly. Bottom line: the content of the book is great. Accessing the content is utterly maddening and if you have even the slightest eyesight problem, you will need a magnifying glass to read it.

this book is the best book to look up your football cards in and it has a very useful alphabetical contents that leads you where to go. I recommend highlighting the cards that you have so you can remember where they are

Pages 241 - 273 are completely missing and I have to contact the publisher to see if they can make it right. did no wrong - my order was processed and mailed quickly and had no damage.

just what I was looking for to check out all of my old football cards. although I need a magnifying glass to read most of it

Great product.

Its great the only thing is not many of the 2013 are in the book. So we purchased the on line price guide.

needed it i am a collector of cards. very helping me to price my cards. I love your books thanks
