Sacred Science Of Numbers: A Series Of Lecture Lessons Dealing With The Sacred Science Of Numbers

Synopsis

This manual contains twelve lessons, one for each number, beginning with number one, (lesson twelve discusses numbers twelve and thirteen). These lessons are not intended for casual reading, but for careful study and meditation, wherein it is hoped that by a lifting and acceleration of consciousness, the student may be able to contact more fully the inner man - that source of wisdom and light eternal which makes life complete both within and without.

This is a favorite source - I keep it close by!

I do like a lot of the examples. Was really hoping to get more insight on what numbers mean from the perception of those math wizards that see number representation for life itself.

Really disappointed. Was a rehash of what is in many other books. Again..... not what I expected. That's all I can say.
