# The Great War: Unseen Archives

## Synopsis

The Great War "the War to End All Wars" which began 100 years ago, cost 15 million lives, and shaped the modern world. New technologies such as tanks, aircraft, submarines and chemical warfare wrought unimaginable horror throughout Europe, upon combatants and civilians alike, for four years. Comprised of more than a thousand photographs, maps, battle plans and contemporaneous news reports, this book tells the complete story of this devastating war.

## Customer Reviews

Robert Hamilton is the author of numerous historical reference works and biographies over the last twenty years including The History of World War One, The Atlas of World History and Ancient Egypt.

First of all, the reader must be interested in World War I. The period covered ranges from the prewar period prior to the assassination of the Archduke and his wife to the post-war period after the signing of the Treaty of Versailles. The book has a broad scope and covers such theaters of war as the Balkans, Africa, the Middle East, the war at sea, and the war in the air in addition to the ground war across Europe.

I'm still reading and viewing this fascinating book. Highly recommended for those who study the Great War.
