Synopsis

ROSE BUSH: LEARN HOW TO GROW A ROSE BUSH FROM A BUD, BLOOM OR BEYOND Today only, get this bestseller for just \$2.99. Regularly priced at \$4.99. Read on your PC, Mac, smart phone, tablet or Kindle device. Youâ™re about to discover how to grow various types of roses and how to maintain their bushes. By all accounts, the rose is without a doubt is one of the most beautiful and most popular flowers in the garden. Not only have roses been around for thousands of years, but they are also relatively easy to grow and they are grown in virtually all countries. In fact, even if you only have minimal gardening experience you can still grow beautiful roses providing you have at least some understanding with regards to caring for them. For many years, lovers have given roses and poets have written of their merits. Now, you may be considering showing how much you love roses by planting your own rose bushes. No doubt youâ™ve heard a lot about how to take care of roses-the diseases to watch out for and the ways to prune them. While it may sound pretty complicated, youâ™ll find that planting your own rose bush is much easier than you think. If you take the following guidelines that are presented in this book into consideration and use them, youâ™ll be sure to do a great job and have a beautiful rose bush that will look wonderful. Here Is A Preview Of What You'll Learn... THINGS TO DO BEFORE PLANTING YOUR ROSE BUSH PREPARATION FOR PLANTING YOUR ROSE BUSH CARING YOUâ™RE YOUR ROSE BUSH THE PERFECT WAY TO PLANT THE PERFECT ROSE BUSH 5 TIPS TO GROW HEALTHY ROSES EVERYTHING ABOUT ROSE BUSH CARE Much, much more! Customer Reviews

I would give this book zero stars if possible. The title is, "Rose Bush--How to Grow a Rose Bush from a Bud, Bloom or Beyond." I was looking for a book that explained how to start a rose bush from a cutting. There is nothing in this skinny book that says anything about starting or cloning roses. In fact, there is nothing in this book that any second-rate student hasn't learned from science lessons. Here's a quote from Chapter 3: "Once the rose bushes are filled with water, or watered insufficiently, they will die because rose plants are very delicate when it comes to watering." That's it on watering." Yup. That says it all. Similarly I learned to dig a hole, and to watch for bugs before they get out of hand. At least I can tear out the 12 pages, plus the four pages advertising other books and the three pages left blank ("NOTES") and use them as mulch.

not what I thought it was

sadly, I found this book lacking in substance, other than the regular well known info on tending roses. I don't feel it was worth the price.

This book is a waste of money.
