Awesome book! Story: I originally purchased this book like 20 years ago. I had taken it with me to the grocery store to pick up some items. I left it in my cart and walked away, forgetting to grab my book. I called the store, but nobody turned in a cookbook. What a disappointment. I have relied on this book for years. Imagine how happy I was to be able to replace it. If you're looking for good Thai recipes, this is the one folks. You can either use their recipe to make your own curry or purchase your curry paste, but either way, this is a great cookbook!!

A very good cookbook, shows you step by step (and with pictures) of how to make basic Thai food. Not all is purely authentic, for that get Thai Food by Thompson (few pictures though), but the pictures help you see if you're on the right track or not. Overall, this is an excellent find. They should make more cookbooks like this.

Hands down the best Thai cookbook recipe I own. This book helped me learn how to cook and still 10 years later I still refer to it and use it every week. If you love Thai cooking this is the only book you will need!

I cook a lot of Thai, this is a quick and easy to use book for beginners.

Great cookbook if you plan to cook Thai food. I have prepared several of the recipes and love their Ginger Chicken.

I used to have a Japanese version and was looking for replacement in English. Now I can share my book with my American friends. The cover of this book was torn, but still worth it.

Perfect condition. I recommend the recipes also.

Really tasty recipes. However, it's not indexed well and it only provides a basic set of recipes - you'll quickly find yourself wanting more.
