Customer Reviews

Susan May has been compared to Stephen King and I can sort of agree on that but May's horror stories are different from King's, not so dark, I think. Like King's books (good or not so good), they are very well written. This box contains three novels, all really good reads. The stories are very different from each other with "Back Again" a time travel story, "Behind the Fire" dealing with "monsters from another dimension" and "Deadly Messengers", an epidemic of mass murders. Especially Deadly Messengers and Behind the Fire were hard to put down, to the extent that I was late for work due to reading them at breakfast... If I hadn't read the novelette Back Again (which the novel is based on) prior to reading the novel, I'm sure I would have been as captivated by that.

Terrific author. I am currently in the process of finding all of her books. Wonderful writing!

Just not my thing. Too gory for my taste, too drawn out to keep my interest, overall, sorry to say, not at all a challenging or stimulating read...none of the three.

Sorry, I don't really care for Susan May's writing. Didn't finish the second book of this series. Just

not my type of book - don't like suspense horror books.

the stories were very interesting and thought provoking.

I was really looking forward to reading these when I saw the comparisons to Stephen King and Gillian Flynn. Sadly, I just finished the first book, Deadly Messengers, and I'm not impressed. Kind of lame, to put it nicely. Don't know if I'll bother reading the other two in the set.

The only thing scary about these books is how horrible they are. The only way they got published must be that her daddy owns the publishing company. I'm really pissed at for pushing this trash on their customer base.

This was advertised as multiple stories. I got 2 complete stories and 8 chapters of a third. Glad it was a cheap price or I would be very upset.
