Language on a need-to-know basis. No textbook necessary. Action-based learning rather than theoretical study. Each unit can be mastered in less than 20 minutes. Flexible learning options throughout - learn just the basics or choose to deepen your knowledge with extra words and practice activities. Those with some prior knowledge of Japanese can skip directly to the 'further' options.

I genuinely loved this course. I learned quiet a lot granted it took me a few days of listening to the CDs, but the pace is just right and it feels natural to learn this way. Great product

This was fun and easy to do! I found myself laughing several times, as the speaker is great at tying in humor to help you to remember things, too!
