The Anunnaki Of Nibiru: Mankind's Forgotten Creators, Enslavers, Saviors, And Hidden Architects Of The New World Order

Synopsis

Many historical and scriptural findings not included in the Canonical Bible, have now come to light. Access to texts such as the Lost Book of Enoch, the Nag Hamadi Gospels, and the Book of Jubilees, among others is now widely available and, when synthesized and correlated with existing documents like the Bible and Qu'ran, merits rethinking Western civilization's origins and intent. Prepare yourself for a profound belief-challenging journey through ancient Persia, Sumer, Greece, and Atlantis; from Rome to the United States, HQ of the New Atlantis. This book is not like any other in the field: expect the winged-warrior aerial perspective of an Army Attack helicopter pilot, the BS filter of an Electrical Engineer, a Western Medicine-challenging Structural Integrator, and Southern California didgeridoo player all at the same time. Energy and matter, sound entrainment, slave control design methods using the electromagnetic spectrum, eternal life, gravity, and DMT are addressed herein. U.S. public school history ignores the Sumerians, although they are credited with all aspects of modern civilization, influencing both Egypt and Greece alike. Television series produced by the History Channel, like the "Ancient Aliens" Series is assisting the masses in waking up to the fact that the Anunnaki were not a myth, having left physical documents and artifacts backing up their claims to have created mankind, described in highly sophisticated language, as recorded by Atrahasis. It was in South Africa, where the idea was spawned to create a primitive worker, namely mankind, to operate the gold mines, provide temple building manpower, and generally serve every whim the Ancient Astronauts from Nibiru conceived of. Many of the Nibirians, referenced in the Biblical Genesis as the Elohim, known to the Sumerians as the Anunnaki, were enthroned as Gods in Mesopotamia. Perhaps it is fitting for Westerners to look into the religious and historical origins for the kings and demigods of Sumer, the first culture to provide evidence of the cuneiform script language, complete with no antecedent. Not only were mundane records, detailed as they were, kept on clay tablets, tens of thousands of which survive to this day, but the history and direct experience accounts of some of the famed inhabitants, like king Gilgamesh of Uruk, introduce us to "Those who from Heaven to Earth Came." The Anunnaki astronauts hailed from a planet, Nibiru, in our own solar system, whose apogee resides in a 3,600 retrograde elliptical orbit beyond Pluto. According to their records, likely using spectroscopy as scientists do today, they located gold on planet Earth. Due to a failing atmosphere on Nibiru, Anu their king, dispatched his preeminent scientist and first-born son, Enki, on a space mission to Earth to recover enough gold that could be ionized in a layer of their atmosphere, as a solar radiation shield. Anunnaki gold mines in Africa have been found and carbon dated. Mining operations were occurring at the exact time and location that the "Genetic Eve Study" indicates: Womankind's genetic origins are

undeniably linked to Enki's gold mining operation. Egyptian Queen Sheba's mines ring a bell? Michael Tellinger followed the Sumerian account to Africa, locating many of the mines, homes and temples used by the primitive workers and gods, our true ancestors. Additional source material and limited genealogy tables are included in the Bibliography and Appendix for the reader to explore. More exhaustive ones are available by contacting the author. Now consider your place in the unfolding New World Order. Will you choose the Enlilites or Enkiites to affiliate with, or do you have a choice? Enjoy this intellectual read, it is mind-bending, pineal-gland stimulating, and worth it! Available as Hardback, Audio Book, and Kindle Now!

Book Information

Paperback: 274 pages

Publisher: CreateSpace Independent Publishing Platform; 1st edition (August 4, 2013)

Language: English

ISBN-10: 1491211229

ISBN-13: 978-1491211229

Product Dimensions: 6 x 0.7 x 9 inches

Shipping Weight: 1 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars 366 customer reviews

Best Sellers Rank: #93,926 in Books (See Top 100 in Books) #18 in Books > History > World > Religious > New Age, Mythology & Occult #73 in Books > Textbooks > Humanities > History > Middle East #104 in Books > Religion & Spirituality > Occult & Paranormal > UFOs

Customer Reviews

Gerald Clark is a 1994 graduate of the University of California at San Diego (UCSD). Gerald holds an MSEE in Electronic Circuits and Systems, and a BS in Computer Engineering both from UCSD. Gerald is the author of several papers in the communications and electronics field and is well known for his work in the San Diego high technology industry, awarded several patents in the Free Space Optical Laser Communications field while serving as Vice President of Engineering, LightPointe Communications, Inc. Gerald's career involved companies like Loral Telemetry and Instrumentation where he lead the final phase of the Globalstar Telemetry and Command modem designed for Qualcomm- used to command, monitor, and control 54 LEO Globalstar Constellation Satellites. While serving as VP Engineering at Tiernan Communications, Gerald and his small team of hardware and software engineers were credited with "Digitizing American Television", having demonstrated the first live HDTV ABC Monday Night Football game on-air transmission from

New York to San Diego using Tiernan Communications, Inc. HDTV 1080i/720p MPEG-2 Encoders. During the years 1996-2002, working as a telecommunications executive, Geraldâ€™s business travels took him to various parts of the world exposing him to a plethora of cultures which acted as a catalyst for his research into mankind's earliest technologies and accomplishments, including the cultures of Mesopotamia and the surrounding areas of Turkey, Egypt, Persia, and Iraq, eventually leading to the cuneiform-inscribed tablets left by the Sumerians. Knowledge of the Anunnaki here on Earth, both in the ancient past their presence here and now, is being fully-disclosed around the world. My hope is that this book will help the billions of primitive workers, left to fend for themselves on a hostile planet, to find hope that following the great destruction underway, wrought by the warring gods of Light and Dark, a promised peace in the new age of Aquarius is dawning, actually already upon us. I am excited to share this research with like-minded authors, film makers, and seekers of the truth. Contact me at: clark.gerald7@gmail.com Be ye kind and of good integrity, most of all animate the frequency of Love, the one devised by the Creator of All for us to enjoy. Best wishes on your quest and I look forward to hearing from you.

This book makes a lot of sense, especially within the context of a lot of the books I have been reading recently and current events going on in the world. That is, the theory that an advanced species of life from the 10th planet in our solar system (a planet which our government has repressed for some reason unbeknownst to me) has had a direct impact on the development of humans, as is directly pointed to in the old writings of ancient civilizations referring to deities, is certainly a plausible explanation as to where we come from when you start to look at all the evidence. The problem with the book comes with the writers skill to inform a reader. This book is very short and dives right in to some very bold assumptions without providing much background or enough citations to back it up. Apparently, the author is a very intelligent electrical engineer and worked on creating artificial intelligence. Later in his career he came across Zachariah sitchin's work and became utterly fascinated but very skeptical. 9 years he spent traveling the world and looking at old records to gather the data he's currently got locked up in his mind and, frustratingly, he is obviously having trouble getting it out to the reader in a comprehensible way. The biggest error is you know the author has so much he wants to say to the reader but he has a hard time going to the readers level and bringing him up to speed. He assumes, probably subconsciously, that the reader knows more than he does and this makes the read difficult at times. There are so many ancient and foreign names dropped in succession that it is impossible to follow who did and said what, and how that proves anything. Luckily I heard a 2 hour radio show of this guy explaining the theory and I had

an easier time following the logic and reasoning. I had to not let myself obsess about knowing every name he was talking about and as I read on it started to make sense. I think this book, or the actual theory in general, could really be on to something but there has to be a lot more work put into the presentation before it can really captivate an audience and reveal the lost truth that our ancient ancestors were trying to tell us about in all of their writings.

Body of book is less than 200 pages. No fat anywhere. Truly written by an engineer obsessed by data and not worried particularly about offending any readers who may have limited perspectives. While it is true, most of our history has been written by the winners and a lot of it is simply wrong. You simply cannot fix it all in a mere 200 pages. And if you would try, you would offend many as evidenced in various reviews. Consider the several page negative review. What would prompt one to react so? For myself, it was a flag to definitely get the book! The book is great, and I mean really great. It is not complete in itself. A good start is to listen to his 3 hour interview about the book 8-21-2013 on Coast to Coast Radio archives. Stichin's books, Tellingner and Heine's "Adam's Calendar" books all tell much of the story. It is really out there now, but as yet, somewhat obscure. This book is a good part of the unraveling of our history that is taking place right in front of us at this moment while we all watch. For some, they may choose to go back to sleep. For others, it is of the most important and profound importance. If you have ever wondered "who we are" and "where did we come from", then this book will be of great value. One can imagine that this book will be spawning others that in turn, will bring a whole new understanding of the "who and why" that we are.

Gerald has read all of the books that I have and research it intensely and applied it to the clues that the ancients have give to us to enlighten and to cure ourselves of disease and remove contamination from our environment. It truly is a book that you read and then re read and then re read again. You will get more and more out of the text as you enlighten more and more through each reading. This surely is a book to give for the Holidays to those who wish to learn the truths that have been given to only the Mystery schools and closed societies for centuries...

No mass large enough to allow sentient life to exist could be in an orbit very far beyond Pluto; Nibiru, Planet X or whatever, for one simple reason. The gravitational field of the Sun is too weak that far out in to the Solar System to hold that large of a mass. But, let's say it can. Then you have another problem. A planet with an orbit so eccentric that it took 3,600 years to orbit the sun would

create instabilities inside of the 4.5 billion year old solar system. After only a few trips, its gravity would have significantly disrupted the other planets, while feeling a responding push from those planets that would have changed its orbit significantly. From Space dot com. In addition to some questionable translations of ancient writings. But, there is enough to this book, all the before mentioned aside, to make some connections as they relate to some of the canonical biblical writings that adds some sense to some of what is in the Christian Bible.

Poor sentence structure throughout, and a lot of statements that weren't substantiated. He refers repeatedly to Zecharia Sitchin's books, which you'd be better off reading than this one. Sorry, it just wasn't well written, and I question this guys credentials. His grammar and writing level just doesn't match up to a high level military and research background. It just doesn't add up, in my opinion...
