I purchased this book a few days ago for improving my communication skill with my co worker. This is an extraordinary guide with many tips and ways by which we can learn how to improve this skill. I have really enjoyed this book and highly recommended for anyone. Thanks to the author.

Being a leader, especially a good one involves many things. You need to develop and show some key values that will make other people want to follow you. It is also very important to be present and understand key body language signals. Great leaders take interest in others and show vulnerability from time to time. Perhaps the most important quality of a leader is showing praise when praise is needed. The book covers all these points and many more interesting leadership aspects.

I just got promoted even though I am just a home base employee and I only have little knowledge with leadership skills. So I decided to look for leadership books and I found this. What I like about this book aside from giving you so much confidence on how to become a respectful leader is it will give you tips on how to gain respect because your people look up to you and not because they are scared.
