Customer Reviews

A great book to have for those starting out in the consulting business. Alan has a lot of great items to consider in the book. It is geared more to advice for big business consulting, so it doesn't cover non-profit and education consulting, but still a lot of good information.

Alan is the first and last word on successful consulting. A must have resource for both new and

seasoned consultants.

A very practical and insightful read.

Some eye opening concepts on marketing and value billing.

There is a lot of stuff in this book that I'm already doing, which is confirming. But I got a big kick from all the neat ideas connected with the Rainmaker concept. Excellent suggestions. I particularly related to the contrarian idea. I could relate to that in a big way. A great read - very helpful.

must have .. must read book if you believe your knowledge is worth hiring..

Brought this for my son who says it has a lot of useful information.

Awesome!
