Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and

science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

I assume it's accurate (but haven't verified). I purchased to pre-plan destinations for an upcoming trip (which I do before determining which part of town to rent lodgings in). Includes (what I believe to be) the entire city (group of islands), not just a cut out of the "downtown" type area. Description said "waterproof" or "water resistant" which I thought meant "laminated in plastic" but it's not; rather, it's a funny type of paper which probably is water resistant. So, I'd say it's LESS than plastic laminated waterproof but WAY MORE than the cheap paper maps we used to use long before smart cell phones.

Just what I needed and at a great price

Good map. I will defiantly use this in Venice. Love that it is water proof!

Clear and very useful. Just waiting to use it at my trip.

large enough to read and still mark locations for scouting around. I bought it to go old-school traveling with a map.

Useful during Venice trip

Can't wait to use it on my trip!

Easy to ready, easy to use, easy to fold!
