J.S. Ratti has been teaching mathematics at all levels for over 35 years. He is currently a full professor of mathematics and director of the Center for Mathematical Services at the University of South Florida. Professor Ratti is the author of numerous research papers in analysis, graph theory, and probability. He has won several awards for excellence in undergraduate teaching at University of South Florida and is the coauthor of a successful finite mathematics textbook. Marcus McWaters is currently the chair of the Mathematics Department at the University of South Florida,

a position he has held for the last eleven years. Since receiving his PhD in mathematics from the University of Florida, he has taught all levels of undergraduate and graduate courses, with class sizes ranging from 3 to 250. As chair, he has worked intensively to structure a course delivery system for lower level courses that would improve the low retention rate these courses experience across the country. When not involved with mathematics or administrative activity, he enjoys playing racquetball, spending time with his two daughters, and traveling the world with his wife.

The book is doing its job, but when I received it it was fairly damaged and written in already.

Class requirement that hasn't cost an arm AND a leg

College book for my daughter!

I was told that I would get an access code with this textbook and I did not.

Very good book to teach from!

Arrived on time and it was the book I needed

Great condition

Received ahead of time and is very helpful in my studies.
