Afghanistan 1:1,000,000 Travel Map (International Travel Maps)

Synopsis

Double sided map, scale 1:1,000,000, with inset street maps of central Kabul and Kandahar. Includes a comprehensive place name index. It is a bit difficult to credit Afghanistan having touristic potential at the moment, but it is an extremely important country right now, and that justifies a very good map of the country. This is our third edition of this country and each one keeps getting better. We can't justify sending a researcher into a combat zone to gather data, but we are thankful to those aid workers and soldiers who have added to our information base and helped make this map more useful. In this edition, we are showing some new roads, reflecting the reality that the country is succeeding in improving its infrastructure in spite of a very tense political situation. We have also placed more focus on the borderlands with Pakistan as that country has been immersed in the Afghan conflict. This edition is dedicated to the Canadian forces, both military, police, and civilian, who are trying so hard to bring peace and stability to southern Afghanistan and who have suffered more than 100 casualties to date. This is not to minimize the enormous contributions being made by many tens of thousands of men and women of other nations, or their equally heavy losses, but as a Canadian, I feel closer to our own. The map also shows a good inset map of Kabul and a recent cover picture taken by one of our helpers.

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985.

The company's titles include many that are unique or the first of their kind, including an extensive series of country, regional and city maps of Asia.

Received just what I ordered and expected.

This map has a tremendous amount of detail. Cities, roads and topography are well illustrated and marked. Much better than most Afghan maps I've found elsewhere.

I purchased this map to follow Alexander the Great's travels as shown in Robin Lane Fox's biography. Also, to follow Winston Churchill's war experiences on India's western frontier as described in his "The Malakand Field Force". That is an excellent read and so prescient of what is being experienced there even today.

Nice map, but it would be nice to have the entire country on one side. Flipping it back and forth is not what I had in mind unfortunately.

I wish I had known it was half on one side and half on the other. I had thought about laminating and hanging on the wall but it won't work for that. Otherwise, appears to be a decent working map.

I am based in Kabul and wanted a map to put on the wall. The ad in no way indicated that it split the country in two, with half on each side. Not very helpful
