Customer Reviews

Lawrie Ryan is well respected in the field.

Book was in terrible condition, much worse than described. As I was purchasing this for classroom differentiation- simplified sources for different learners, I was at least hoping that parts of the book would be useable- and I may be able to find a piece here and there. On the other hand, the book itself, scribbles and damage aside, is a good adjunct for differently abled learners.

Super fast shipping! Item was exactly as described!
