James Howe is the author of more than ninety books for young readers, including the modern classic Bunnacula and its highly popular sequels. In 2001, Howe published *The Misfits*, the story of four outcast seventh-graders who try to end name-calling in their school. *The Misfits* is now widely read and studied in middle schools throughout the country, and was the inspiration for the national movement known as No Name-Calling Week (NoNameCallingWeek.org), an event observed by thousands of middle and elementary schools annually. There are three companion novels to *The Misfits*: *Totally Joe* (2005), *Addie on the Inside* (2011), and *Also Known as Elvis* (2014). Howe's many other books for children from preschool through teens frequently deal with the acceptance of difference and being true to oneself. Visit him online at JamesHowe.com. Jeff Mack has written and illustrated a long list of award-winning picture books, chapter books, and early readers, including the

I read the original version of "Bunnicula", which was a favorite book from my childhood, to my daughter a little too early. While she loved the humor, the story was too intense for her. A few weeks later I found this at the library and brought it home. BINGO! This adaptation stays very true to the original, while being more accessible to her. She was able to enjoy the humor and silliness of the original story, but at an intensity of "scary stuff" that she was comfortable with. At the time she was reading at a high 1st grade level, and could read this herself with no problem. We've since purchased this book along with the rest of the "Bunnicula and Friends" series, which she has devoured. She has even brought them to school to share with friends. And I can think of no higher recommendation than that

I read the Bunnicula books when I was a kid. Now I get to share these great little stories with my little ones. This is a cool idea to read these first to my kids, then get them to read the other ones when they get a little older.

it was good but i was expecting the book not a condensed version of the book

Have loved these books since their original release many years ago!

My 28 year-old son was overjoyed when he received this book as a gift. He loved reading James Howe's books when he was in elementary school. He had fun rereading this one and will put it aside for when he has children of his own.

Very cute book. I bought this for my 8 year old son. It was easy for him to read and it was funny so he actually read the whole book!

My six year old loves this book. It's silly spooky, and written at a level he can follow along with, 1st grade reading level. They are good to help him with his reading goals.

I bought for my grandson and he loves it. He was reading one of books in school and wanted to get

more books same author.
