Customer Reviews

This is a great book on French Chic. All of the things, tips and guides that I need to know about French style lessons to dress chic and look charming are already included and well written inside. Sophie Claire has done an incredible awesome job in compiling and creating this book. Also the unique part of this book is the compilations of the "French Chic" Best Colors And Fabrics & Skincare And Make-up Advice. Very informative, useful and well explained. This book is really a great resource for those who want to learn more about French Chic. The book is worthy of attention!

This is an extraordinarily informational book of styling, outfitting one with the basics on the most ideal approach to be more energetic, elegant, and rich. It offers such an extraordinary measure of decisions to helping one stay in an example, with such an extensive number of French style lessons on spruce up. It is not about being addictive to what is inclining at this moment, yet picking your wardrobe on what works best for you. By breaking down this book you'll see that it is so run of the mill to look amazing, feel certain and unimaginable.

A little too short. The content is very good, in fact a few things I had completely forgotten and some others which did not know were excellent to learn again. Not a difficult book regarding applying the "lessons" in wardrobe selection, shoes and accessories. Liked the hair section and more the very short body parts acceptance and small portions concept, period!

Wow. What a book. There are 21 French style lessons for us. I love the every style Sophie Claire shows us. Fashion concern women like me who wants to change themselves with a new look just read this book. Love it

It rouses me to keep precisely what I worship and that which compliments my body paying little respect to current shape. It goads me to keep exactly what I revere and that which compliments my body paying little regard to current frame. By examining this book you'll see that it is so normal to look stunning, feel certain and great.

This read makes curating your closet much easier than the other books I've read on the subject. Precise instructions are given on the how's, what's & why's to get that French look/feel....you're definitely not left wondering what the next step will be to obtain that carefree yet sophisticated look.

Amazing book for Style Lessons. This is a very well written and well presented book for anyone. It provides lots of tips, techniques and step by step instruction that is easy to understand. You'll learn exactly how to dress and look french chic. Highly recommended!
